LETTER OF DEFICIENCY WSEB #02-90
CERTIFIED MAIL # 7099 3400 1108 5776 3155

Subject: Gilford – Public Water System: Broadview Condominiums (EPA #0882130)

Dear Mr. Francoeur:

The records of the Department of Environmental Services (DES) show that the Broadview Condominiums water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system serving 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner, in compliance with NH Administrative Rule Env-Ws 303.03, is required to obtain a "permit to operate" from DES. This permit is renewable on July 1 of each year. According to NH Admin. Rule 303.03(e)(1), community water systems having 30 or more household service connections or equivalents shall pay a permit to operate fee of \$300.00 per fiscal year.

Our records indicate that the Broadview Condominiums water system has 51 household service connections and is, therefore, required to pay a permit to operate fee of \$300.00 per state fiscal year. DES records show that the Broadview Condominiums has failed to pay for and obtain a permit to operate for state fiscal year 2003 and is, therefore, in violation of NH Admin. Rule Env-Ws 303.03.

This violation can be corrected by taking the following action

By August 23, 2002, complete the permit application, make any necessary corrections to the "Contact Information Report," and pay the outstanding permit to operate fee of \$300.00 for fiscal year 2003.

In the event compliance is not achieved within this period, DES will take further enforcement action, including issuing an order requiring the deficiencies be corrected, initiating an administrative fine proceeding and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

The permit to operate application, updated Contact Information Report, and fee should be sent to:
